Policy for Promotion of Research

Research is common tread running through all kinds of Professions and pursuits, from Ancient Rome right up to the present day. If you Practice research, You are part of a long list of people throughout history, all dedicated to finding new Knowledge and ideas that ultimately make the world a better place. Being a researcher requires dedication, and work and more than a little inspiration. “for good ideas and true innovation, you need human interaction, conflict, argument debate”

1. Introduction:

The promotion of research is a one of the significant responsibility of our college. Our college is actively engaged in this through evolving appropriate policies and practices, making adequate resources and infrastructure available, encouraging active research involvement of teachers and scholars in research as well as recognizing any achievement of teachers through research.

Required infrastructure in terms of space and equipment and support facilities are made available on the campus for undertaking research. The institution collaborates with other agencies, institutions, research bodies for sharing research facilities and undertaking collaborative research.

The institution provides support in terms of financial, academic and human resources required and timely administrative decisions to enable faculty to submit project proposals and approach funding agencies for mobilizing resources for research. The institutional support to its faculty for submitting research projects and securing external funding through flexibility in administrative processes and infrastructure and academic support are crucial for our college teachers to excel in research. The faculties are empowered to take up research activities utilizing the existing facilities. Our college encourages its staff to engage in interdisciplinary.

2. Recognized Research Centre:
