As part of teaching, pls focus on sharing unique insights and practical learnings that go beyond what is available in books or YouTube videos. Course content, such as definitions, theories, and sections, atudentavcan easily be accessed through various online and offline resources. and for LLB students who are seasoned students and experienced can read notes etc. so as part of lecture each topic will be with on case lawand case study and 50 minutes class can be spent on case studies and usages of it than theoretical aspects

More interaction should be done.

Some books on corporate laws should be added in library.

Conduct more seminars of well experienced and expertised advocates.

Teaching can be improved

College authority should think of internal assessment marks difference in regular and irregular students.

College authority should provide space in the college premises to sit after classess gets over.

College authority should provide library reading room separately for girls and boys.

To avoid distraction for the students who are interested to sit and study after college session.

Institution/Teachers have taken physical as well as online classes as per convenience of students.

Improvement in teaching is very necessary

It Good

Overall the performance is satisfactory.

All good

1. More involvement of students in teaching process is suggested as they need to have courage to speak fluently as an advocate.
2. To inculcate practical exposure to real life situation, more visits must be arranged to the institutions related to justice system.
3. It is observed that some staff members need training on pedagogical skills and in-depth knowledge of the subject for facilitating the learning process effectively.

The quality of teaching is excellent, with knowledgeable, understanding and helpful faculty. However some I highly suggest to have different Training, Court visit experience, Advice students for their career and academic opportunities.

The whole teachers and staffs are very good and well qualified but sometimes the teaching process held very fast due to affect in lack of understanding the concept. After all the College or institution is very nice with all well educated and having friendly nature teachers where we didn't hesitate to ask any query .

Theory.practical,moot court.

Law school can be tough at times, especially for students coming from different streams, but our institution not only focus on theoretical learning but emphasises practical training, including moot courts, legal clinics and internships. We are learning and developing!
