

ANNUAL REPORT
VASUNDHARA GREEN CLUB
ACADEMIC YEAR 2024-2025

In August 2024, Dayanand College of Law, Latur established the Vasundhara Green Club with the vision of promoting environmental awareness, biodiversity conservation, and sustainable living among students. The Club was launched under the guidance of Principal Dr. Poonam Nathani to encourage students to become active participants in environmental protection.

The launch marked the beginning of a series of environmental initiatives aimed at creating ecological awareness through education and community engagement. Since its inception, the Club has been actively organising tree plantation drives, environmental awareness programmes, biodiversity conservation activities, nature visits, and community outreach programmes to instil environmental responsibility among students.

The Vasundhara Green Club serves as a platform for students to translate environmental knowledge into meaningful action, contributing towards a greener campus and a sustainable future.

Objectives

To promote environmental awareness among students.

To encourage sustainable and eco-friendly practices.

To develop responsibility towards nature and biodiversity.

To provide practical exposure through environmental activities.

Outcomes

Increased environmental awareness among students.

Enhanced practical knowledge through field-based learning.

Promotion of eco-friendly habits and sustainable practices.

Active participation in environmental conservation activities.

The environmental activities conducted during the academic year 2024–2025 successfully promoted environmental consciousness among students and encouraged them to contribute towards nature conservation and sustainable development.

COMPOSITION OF THE COMMITTEE

Asst.Prof. Shital Ghute Patil (faculty coordinator)

Samruddhi Birajdar - President (Youth)

Prasad kedar - Vice - President (Youth)

Shubham Patil -(Campaign)

Aditi Dhage - (Campaign)

Kiran shinde -(Documentation)

Activities conducted

1. World Nature Conservation Day

Date: 28/07/2024

Report: On the occasion of World Nature Conservation Day, the B.A. LL.B. III Year students of Dayanand College of Law, Latur organised environmental awareness activities to promote the importance of nature conservation. As part of the programme, students carried out a tree plantation drive and later presented PowerPoint presentations in the classroom, sharing their experiences, observations, and the significance of protecting biodiversity. The activity encouraged students to adopt environmentally responsible practices and reinforced the need for sustainable development.

2. Poster Making Activity

Date: 02/08/2024

Report: The Department of Environmental Studies organised a Poster Making Activity to promote environmental awareness and encourage students to express their ideas creatively. Students prepared informative and attractive posters on various environmental themes such as nature conservation, pollution control, biodiversity, waste management, climate change, and sustainable development. Through their artistic presentations, they conveyed important messages about protecting the environment and inspired others to adopt eco-friendly practices. The activity enhanced students' creativity, environmental awareness, and communication skills.

3. Debate Competition on Electric Vehicles

Date: 06/08/2024

Report: The Department of Environmental Studies organised a Debate Competition on the topic "Everyone Should Switch to Electric Vehicles." Students actively participated by presenting arguments both in favour of and against the motion. The debate highlighted the environmental, economic, and technological aspects of electric vehicles, encouraging critical thinking and awareness about sustainable transportation. The programme enhanced students' communication skills while promoting environmental consciousness.

4. Solar Panel Visit

Date: 10/08/2024

Report: As part of the Environmental Studies curriculum, students participated in an educational Solar Panel Visit to understand the practical application of renewable energy. During the visit, they learned about the installation, functioning, and environmental benefits of solar energy systems. The activity provided valuable practical exposure and inspired students to appreciate the importance of clean and sustainable energy sources in protecting the environment.

 Dayanand Education Society's DAYANAND COLLEGE OF LAW, LATUR SOLAR PROJECT INFORMATION	
Date of Installation	- 31st March 2018
Capacity	- 15 KW
Amount	- Rs. 5,65,946/-
Purchased from	- Aditya Green Energy Pvt. Ltd.
Saving of Energy	- Approx. 1000 Unit Per Month

5.Tree Plantation Project Presentation

Date: 16/08/2024

Report: On the occasion of World Nature Conservation Day, the Department of Environmental Studies organised a Tree Plantation Project Presentation. Students of B.A. LL.B. III Year carried out tree plantation activities and later presented their projects in the classroom through PowerPoint presentations. They shared their experiences, explained the importance of tree plantation, discussed the environmental benefits of increasing green cover, and highlighted the role of trees in maintaining ecological balance. The activity promoted environmental awareness, teamwork, and a sense of responsibility towards nature.

Student Participation

Students actively participated in all environmental activities with enthusiasm. The programmes enhanced their environmental awareness, teamwork, leadership, and practical understanding of sustainability.

6. Bird Conservation Presentation

Date: 29/07/2024

Report: Students of the Environmental Studies course delivered informative presentations on Bird Conservation, with a special focus on sparrows and other birds facing environmental threats. They discussed the causes of declining bird populations, habitat loss, and the importance of biodiversity conservation. The presentations created awareness about the need to protect bird species and encouraged students to contribute to wildlife conservation efforts.

The sparrow is also known as the "Golden Bird" that's mean " SONE KI CHIDIYA " 🐦

- There are 26 species of sparrow worldwide while 5 of them are found in India

Sparrows found in India up to Assam Valley and lower part of the Assam

- They are also play virtual role in the food chain

What role do Sparrows play in the welfare of humans ? 🐦

- They play a crucial role in seed dispersal insects control and pollination contributing to the health of ecosystem
- Sparrows are usually very shy birds no one can ever see a Sparrow resting or preening .
- They are always at the edge and quick to fly away The Real Bond with Humans
- One of the major reasons why sparrows are going extinct is because of increasing urbanisation and expansion
- Habitat loss is a major factor in the declining Sparrows population
- Protection of Birds Act 1954
- Partridge v/s Crittenden 1968 [England case]
- " Wildlife Protection Act 1972 "
